CHICAGO GRAIN.
CHICAGO, Jan. 14.—Urgent need of rain in India tended to bring about an advance today in the wheat market here. Famine reports from some provinces of India gave further emphasis to the untavorable crop conditions reported. Buying however lacked volume. Initial quotations which ranged from half cent to 1½c lower, with March \$1.78 to 1.78 and May \$1.69½ to 1.79, were followed by an advance all around to well above yesterday's finish.

Bural selling of corn counted against any unturn in that cereal. After opening unchanged to 7½ lower, including May at 74½ to 74%c, the market recovered to about yesterday's closing figures.

Oats, like corn, seemed inclined to lag, starting a shade to ½c off, May 45%c, and faling to get much above the initial level.

Provisions were weak in line with hors.

Provisions were weak in line with hogs.
Later, the slowness of export wheat
business led to setbacks. The close was
heavy, ½ to 2c net lower, with March
\$1,77% to 1.77% and May \$1.70 to 1.70%,
Subsequently cood demand for corn
from the senboard upheld the market just
before the finish. Closing prices were
easy % to ½c net lower, with May 74%c.

MRS. HARDING'S SECRETARY?

Electoral Boards and Courts Function

HAVANA, Jan. 12.—(By The Associated Press).—Ma'or General Enoch H. Crowder, special representative of President Wilson investigating conditions in Cuba, in a statement last night after referring to the failure of the electoral board and courts to function within the prescribed limit, declared. The these agencies continue to fail. Cuba, in due course of time will be confronted with ad interim provincial and national administrations and after the first Monday in April next, with a total paralysis of the legislative power."

General Crowder until Thursday has maintained absolute silence over since nesota a week ago. His statement, which sets forth "what has been ac-complished thus fav at the instance of President," follows: ELECTIONS NOT DECIDED.

"As President Menocal has so force-fully stated in his admirable letter to the central electoral board, the urg-ency of the present electoral situation concy of the present electoral situation lies in the fact that already, through the fallure of the electoral boards and courts to function within the present and courts to function within the present function within the present of the first limit, we have today an scribed time limit, we have today an ad inserim or provisional municipal administration in a majority of the municipal districts of Cuba.

"If these agencies continue to fail. Cuba. In due course, will be confronted with ad interim provincial and national administration and after the first Monday in April next, with a total paralysis of the legislative power, due to the fact that on that date one-half of the seats of congress will become vacant. MANY CONTESTS BROUGHT.

MANY CONTESTS BROUGHT.

"The electoral brards have functioned and posted their provisional returns. What is lacking is the action of the Cuban judiciary on the contested boards of which there are a great number involving practically all of the colleges of Orionte and Matanzas, and a large number of the colleges of Sania Clara, including whole municipal districts and a smaller number of colleges in other provinces

"What has been accomplished thus What has been accomplished thus far at the instance of the president, 1815 is the particles co-operation of the supreme court and central electoral board in the issuence of proper instructions and regulations and the parties in the waiving at certain provisions of the legal procedure of Cuba, all of which means a most expeditious procedure for the courts in deciding these courses of the courts of the cour numerous

APPEAL FOR ACTION.

"The electoral code of Cuba makes a special appeal to the judiciary of Cuba in such a sit antion as now exists. It should be the attitude of every one to assume that the Cuban courts will meet that situation and discharge their tull responsibility. They have the mardatory duty of decreeing the nullity of the elections in any college or colleges for any of the Open High Low Close any colleges for any of the elections in any college or colleges for any of the causes—A to O inclusive—mentioned in article 242 of said code, and the authority to invalidate code, and the authority to invalidate thority to invalidate elections for oth er causes where it shall be established by proper proof that there has been suppression of the vote or a failure of the accrutiny and canvass through 47% intimidation, force or fraud or other

I point to these provisions in order to remind all the contestants that the law as drawn gives them an am-ple remedy and to express my belief that the courts will be courageous and fair in the application of the law to that the course will be courageous and fair in the application of the law to the several appeals which have been taken and, of course, this means courage to grant an appeal and, as well, the courage to deny one; in other words, fairness to both parties.

TURNS TO OTHER TASKS.

The course will not be set to be be s

The courts will not be at all ob-structed by technicalities.
